## Environmental Statement

WD Close and Sons Ltd is an environmentally conscious company. We understand the environmental impact that we have because of our day-to-day activities. As a result, we continually work towards reducing the negative impact from our work and the work of our clients and suppliers. We are continually developing initiatives for clean and sustainable working.

WD Close and Sons Ltd are fully committed to:

- The implementation of this statement and ensuring that it is communicated and understood at all levels within the company and that it achieves its intended objective.
- Protecting the environment and preventing pollution.
- Ensuring that the company's day-to-day activities comply with all environmental regulations.
- Setting environmental objectives and aligning risks and opportunities with the context and strategic direction of the company.
- Monitoring the company's performance against environmental objectives.
- Operating in a responsible manner and providing resources and finance to continually improve our environmental performance.
- Providing training to our employees to ensure environmental issues are taken into consideration when managing our infrastructure and projects.
- Promoting a sustainable approach to business activities in partnership with our clients and other stakeholders by reducing emissions, minimising the use of energy, disposing of hazardous waste safely and implement waste reduction by recycling materials whenever possible.
- Formally reviewing this Statement annually and revising it whenever necessary.

The commitment to improve our environmental performance lies not only with the Company but also with the employees. Successful application of this statement relies on cooperation and engagement from all parties.

Chris Close  
Managing Director
